

GUIDE TO USING THE KER Clockit™ APP

- Download the app via iTunes (search KER Clockit™) and follow the link in the confirmation email to register your account
- In the STABLE tab, select HORSES. Using the + sign you can fill in the horse details and save them to your stable. Do this for all of the horses you will be using in this study (3-5)
- In the STABLE tab, now select LOCATIONS. Using the + sign set locations as HOME, GALLOPS, COMPETITION, TRAINING AWAY
- In the STABLE tab, set your work types. Using the + sign set your work types as FLATOWRK, JUMPING, HACKING, INDOOR SHOW JUMPING, INDOOR FLAT WORK, CANTER, GALLOP and COMPETITION

To start a session:

- Click on the SESSION tab and select NEW SESSION
- Select the HORSE that you are riding from your list, these will be shown in 'my horses'
- Select your LOCATION from the pre set list of locations
- Select your WORKTYPE from the pre set list of work types
- Don't worry about using training protocol
- START NEW SESSION

To end a session:

- END SESSION
- Select STORE LOCALLY this will then allow you to view your recent session then press DONE

To upload your training sessions:

- This is best to be done at the end of the day when you have a strong signal or are connected to WIFI
- In the SESSION tab, select SESSION HISTORY
- In 'LOCALLY STORES SESSIONS' you will see all of the saved sessions from the day
- Select each one individually and you will be prompted to confirm 'YES' this will upload your session
